SUMMARY

AI Software Engineer focused on building LLM-powered systems using LangChain, RAG, and FastAPI, with hands-on experience developing AI agents, compliance assistants, and intelligent document generation pipelines.

EDUCATION

Sanjivani University

Bachelor of Technology — Computer Engineering

Kopergaon, Maharashtra

2024 – 2027

DVVP Institute of Technology & Engineering (Poly)

Diploma — Computer Engineering

Percentage: 78%

Pravaranagar, Maharashtra

2021 – 2024

SKILL SUMMARY

Languages	Java, Python, C, C++, PHP, JavaScript, HTML, SQL
Frameworks / Libraries	LangChain, LangGraph, FastAPI, React, Angular
AI / LLM	OpenAI API, Gemini API, RAG, NLP, CNNs, Prompt Engineering
Computer Vision	OpenCV, DRNET, CNN
Databases	MySQL, MongoDB, Firebase, ChromaDB
Cloud & DevOps	Git, GitHub, AWS (EC2, IAM)
Tools & Platforms	VS Code, Cursor, Windsurf, Android Studio, Google Colab, Arduino IDE, n8n
Mobile	Flutter, Android (Java)
Embedded	Arduino, ESP32, ESP32-CAM, Raspberry Pi, Embedded C
Soft Skills	Leadership, Communication, Problem Solving, Public Speaking

INTERNSHIP EXPERIENCE

AI Software Engineer — CyberInsurify Labs

Kuwait

March 2025 – Present

- Working on LLMs using LangChain, OpenAI, FastAPI, RAG, NLP, ChromaDB
- Developing CIVA / CARA Intelligence Virtual Assistant for ISO compliance guidance
- Built RAG-based agents for policy guidance, audit simulation, and document generation
- Implemented CARA Document Generator Agent for requirement-based ISO documents

Software Engineering Intern — Innovatus Technologies

Pune, Maharashtra, India

May 2023 – July 2023

- Developed a Blockchain-based ERP system for college fees management
- Built a CNN-based Face Mask Detection system using computer vision

PROJECTS

- Developed a LangChain-based compliance intelligence agent using RAG for ISO guidance, audit simulation, and document generation (*Internship Project*)
- Built an **EEG & ECG based Neurological and Cardiac Disorder Prediction** system using deep learning — applied CNN-based classification on biomedical signals for early detection of brain disorders and heart arrhythmias with signal preprocessing and feature extraction pipeline
- Designed and orchestrated a multi-agent LLM system using LangChain and LangGraph for autonomous task planning and execution
- Built an autonomous LLM-based Market Intelligence Agent using LangChain for real-time competitor monitoring, trend analysis, sentiment tracking, and AI-powered strategic reporting
- Developed **HRMS System** for **Buhler Scherler** — location-based attendance tracking (GPS), employee progress tracking, project & task assignment, and payslip generation (*Client Project*)
- Designed and implemented a web-based inventory management system covering stock operations, order taking, production management, QA workflows, and delivery tracking for **Sky Agro** (*Client Project*)
- Developed an internal **ERP system** for **KMA Associates** to manage employee operations, data workflows, and end-to-end documentation management (*Client Project*)
- Built **Gyanam India** — a full-stack educational platform with course management, student enrollment, progress tracking, and structured learning content delivery (*Client Project*)
- Designed and developed responsive websites for kmassociates.in, strandforce.in, and grampanchayat.brahmangaon.in, delivering optimized UI/UX and production-ready deployments (*Client Project*)

CERTIFICATION

- Prompt Engineering for Developers — DeepLearning.AI
- Introduction to Large Language Models — Google (Kaggle)

- MongoDB for Developers — MongoDB University
- Java Fundamentals — Oracle
- Introduction to Large Language Models — NPTEL
- Cloud Computing Using AWS — Talent Battle

ACHIEVEMENTS

- President, Innovation Cell, Sanjivani University
- 1st Prize — Micromouse Competition, IIT Guwahati
- Research Publication — ERP for College Fee Management System Using Blockchain ([View Paper](#))
- 2nd Prize — National Level Project Competition (ERP using Blockchain)
- INSPIRE MANAK Award — State Level (Agri Innovation)
- 2 Times Best Male Voice Anchoring Award — Pravara Polytechnic

LANGUAGES

English (Professional), Hindi (Fluent), Marathi (Native), Japanese (Basic)
